## WORK EXPERIENCE

### WordPress Developer – Lathiya Solutions

07/2022 – PRESENT

**E-commerce Store Development:** Designed and developed multiple WooCommerce-based online stores, ensuring seamless integration of payment gateways, product catalogs, and custom checkout processes.

**Multisite Development:** Managed and configured WordPress multisite networks for various clients, implementing domain mapping systems and resolving cross-site login issues.

**Theme Customization:** Customized existing WordPress themes to meet client specifications, including modifying CSS, HTML, and PHP code to enhance functionality and design.

**Figma to WordPress:** Translated Figma designs into fully functional WordPress websites, maintaining design integrity and responsiveness across all devices.

**Elementor:** I create dynamic, visually appealing, and responsive layouts using Elementor, integrating Advanced Custom Fields ACF and Essential Addons for enhanced functionality.

**Divi and WPBakery:** Utilized Divi and WPBakery page builders to develop custom layouts and templates, improving client satisfaction with intuitive drag-and-drop editing capabilities. **WooCommerce:** Customized WooCommerce functionalities, including product pricing, checkout processes, and custom thank-you pages, to meet unique client needs. **Performance Optimization:** Implemented performance optimization techniques such as caching (WP Rocket), image optimization, and code minification to improve site speed and user experience.

**WooCommerce:** Customized WooCommerce functionalities, including product pricing, checkout processes, and custom thank-you pages, to meet unique client needs.

**Performance Optimization:** Implemented performance optimization techniques such as caching (WP Rocket), image optimization, and code minification to improve site speed and user experience.

## KEY PROJECTS

---

### Theme Customization Development:

**Title:** Custom Demo for WoonderShop Theme

**Description:** Created a new demo layout using SiteOrigin, SCSS, and Bootstrap 4. Integrated TGMPA and OCDI for one-click demo import, enhancing theme usability and flexibility.

**Tech:** WordPress, SCSS, Bootstrap 4, SiteOrigin, TGMPA, OCDI

**Link:** <https://demo.proteusthemes.com/woondershop-haven>

### Theme Demo Integration:

**Title:** Multi Page Builder Demo Integration with OCDI

**Description:** Extended OCDI functionality to support both Elementor and Site Origin page builder. Handled backend logic to enable seamless demo imports across multiple builders for improved user flexibility.

**Tech:** WordPress, OCDI, Elementor, Site Origin page builder, Elements Kit, WooCommerce

**Link:** <https://demo.proteusthemes.com/buildpress-elementor/>

### WordPress Development:

**Title:** Lifecycle Management System

**Description:** Developed a backend system for listing, reporting, and messaging around waste item collection. Integrated dynamic maps, user tracking, notifications, and social login.

**Tech:** WordPress, CPTs, Gravity Forms (Geolocation Addon), Beaver Builder, Better Messages, Social Login

**Link:** <https://lifecycle.international>

### Custom Integration with WordPress

**Title:** ArcGIS Map Integration with WordPress for Water Trail Project

**Description:** Integrated ArcGIS maps with WordPress using custom post types and APIs. Enabled dynamic map rendering, real-time sync with ArcGIS Online, and backend-driven location control.

**Tech:** WordPress, ACF Pro, ArcGIS Pro, ArcGIS Online, ArcGIS API, REST API, CPTs

**Link:** <https://staging.tualatinwatertrail.org/map/>

## PERSONAL PROJECTS

---
